

BARAKA JEFF GACHANGO

Kajiado North, Rongai, Kenya

jeffbarakag@gmail.com | +254 790 518 958

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in software engineering, automation, and system integration. Proficient in Python and Bash scripting, with applied experience building intrusion detection systems using anomaly detection techniques and automated data pipelines. Familiar with Git-based collaborative workflows, cross-functional team environments, and deploying solutions across multiple client infrastructures. Eager to apply a strong programming foundation and systems thinking to machine learning engineering challenges at Apple.

SELECTED EXPERIENCE

Automation Engineer, Integral Software Technologies

February 2021 - August 2023

- Designed and implemented automation workflows to enhance medical and administrative data processes.
- Led the creation of intrusion detection systems for network traffic using Snort and Python-based anomaly detection, directly applicable to ML-driven anomaly reasoning.
- Automated data collection and reporting pipelines, improving accuracy and operational efficiency.
- Conducted regular system assessments to identify vulnerabilities and maintain optimal performance.

System Administrator, Integral Software Technology Ltd

January 2025 - September 2025

- Developed and deployed automated backup scripts for PostgreSQL using Docker and Rclone across 40+ client sites, improving data reliability at scale.
- Contributed to front-end development and collaborated with engineering teams on system integration projects.

Junior Developer, Integral Software Technology Ltd

October 2025 - January 2026

- Developed backend functionality and API integrations for mobile and web applications including the Find Your Vibe app.
- Participated in testing, debugging, and performance optimization to deliver high-quality applications.

Senior Software Developer, Integral Software Technology Ltd

February 2026 - Present

- Leading architecture and development of enterprise web applications with a focus on scalability and system optimization.
- Supervising engineers, conducting code reviews, and driving continuous improvement across software projects.
- Collaborating with cross-functional stakeholders to translate requirements into robust technical solutions.

EDUCATION

Kenyatta University

Bachelor of Science, Computer Science

September 2021 - April 2026

Institute of Software Technologies

Diploma in Cybersecurity

January 2023 - February 2024

KCA University

Cisco Certified Network Associate Certificate

April 2022

Completed CCNA Levels 1 (ITN), 2 (SRWE), and 3 (NSE)

SKILLS

PROGRAMMING LANGUAGES

Python, JavaScript, PHP, Bash, HTML/CSS

RELEVANT TECHNICAL SKILLS

Anomaly detection, automation scripting, data pipeline development, PostgreSQL, MongoDB, Docker

CYBERSECURITY AND DATA TOOLS

Snort, Wireshark, Scapy, MySQL, Rclone

DEV TOOLS

Git, Visual Studio Code, Sentry, Firebase

PLATFORMS

Linux, Windows, Kali Linux, SSH

COLLABORATION TOOLS

Jira, Asana, Google Workspace
